

BIOSECURITY AT SHOWS

The show Committee shall take all reasonable care for the safety of all exhibits.

The signing of the entry of a dairy goat will be taken as a guarantee that the dairy goat is free from all disease, as far as is known by the owner.

The NSW Branch Entry Form must be signed before any acceptance of entry.

CAE Accredited herds will be separated from other herds on the showground by a wall or distance of 2 metres.

Similar for MN status of Johne's.

Proof of Accreditation or MN status will be required.

Some shows do not have enough pens so safe tethering, or comfortably in trailers with similar distance will be accepted.

Pen spacing between other exhibitors will be aisle way, storage pen of 1 metre or a wall.

Feed containers should be at the rear of the pen, preferably off the ground.

Goats must be milked in pens and not in aisle way.

Exhibitors will open mouths of goats on request of judge.

Judges will use an instant hand sanitizer or separate sanitized wipes (supplied by steward) between goats especially when touching udders.

Milk is NOT to be disposed of on the ground.

Exhibitors must NOT leave milk in open containers

Exhibitors must supply their own bucket with a firmly fitted lid in which to put their goat's milk in.

Milking does must be relieved of sufficient milk to stop leakage on ground.

Exhibitors must ensure that their goats are properly restrained so that interference with other goats & their feed does not occur.

NO animals except goats shall be taken to the show ring or into the goat pavilion.
